

Hik-Connect Mobile Application

The Hik-Connect mobile application is designed to work with Hikvision series DVRs, NVRs and IP cameras which support Cloud P2P function. It allows you to live view your cameras remotely.

Simply create an account, and add each device to your account to enjoy the real-time video feature from your cameras on a global scale. The application also allows you to play back all recorded video at any time, and receive instant message notifications on your device, when any alarm event is triggered.

Real-time Monitoring

Supports adding the device without login

Video Playback

Supports adding the device via IP/Domain

Line crossing detection alarm notifications

Supports adding the device via Hik-Connect Domain

New Easy IP 3.0 Camera Series

Video surveillance does not have to be complex. Technological advancements in every corner of our lives is becoming more and more simplified and user friendly. And it's true in security, too.

What makes the best security system? The right components in the right places. And for the small to medium sized business with budget and time restrictions, Hikvision has got the right solution. The Easy IP 3.0 Solution.

For those who know the earlier EasyIP versions, this is the go-to, out-of-the-box system. It gets the job done with stable, reliable components and advanced features from the industry's number one worldwide solutions provider. The EasyIP 3.0 Solution from Hikvision is truly the easier way to better security. Keep reading to see all the benefits EasyIP offers.

About Hikvision

Hikvision is the world's leading provider of innovative video surveillance products and solutions.

Hikvision advances the core technologies of audio and video encoding, video image processing, and related data storage, as well as forward-looking technologies such as cloud computing, big data, and deep learning.

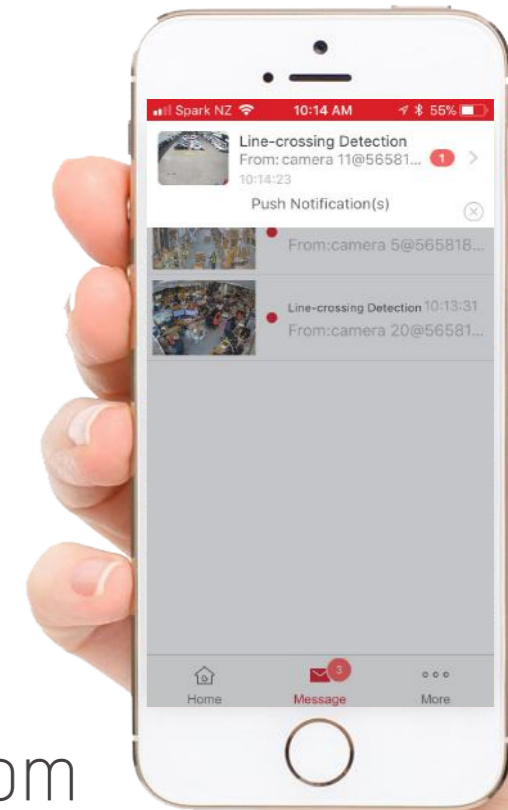

Over the past several years, Hikvision deepened its knowledge and experience in meeting customer needs in various vertical markets, including public security, transportation, education, healthcare, financial institutions, and energy, as well as intelligent buildings.

In addition to the video surveillance industry, Hikvision extended its business to smart home tech, industrial automation, and automotive electronics industries — all based on video intelligence technology — to explore channels for sustaining long-term development.
